Advocare, a physician-owned wholly integrated primary care health care practice announces the relocation of its existing West Deptford Pediatrics practice in Wenonah.

The new location offers patients a 9,700 square foot pediatric facility with state of the art technology, separate sick and well waiting areas, and green features, such as geothermal heating and air conditioning, which uses heat from the ground so it is energy efficient.

Seven doctors and three nurse practitioners will continue to provide comprehensive medical care for children from infancy through adolescence, in the areas of general pediatrics, developmental pediatrics and urgent care medicine.

The new location, which opened March 9, is 646 Kings Highway, West Deptford. Call **(856) 879-2887** or visit [www.advocaredoctors.com](http://www.advocaredoctors.com).
