Advocare, a physician-led multi-specialty group practicing in the region, is opening an office in Mansfield today.

Advocare Mansfield Pediatric & Adolescent Medicine on Route 206 will be served by the staff of Advocare Medford Pediatric & Adolescent Medicine, and will continue to offer patients an accessible office with same day availability for appointments.

Eight pediatricians will provide medical care at the new location for children from birth to age 21. The practice has a special focus on newborns, infant and children, as well as working with the challenges of adolescence, including psychosocial issues. All eight physicians are on staff at Virtua's hospitals in Voorhees and Mount Holly.
