The
Picture
of
Health

Critical Care
R. Phillip Dellinger, MD
Cooper University Physician Group

As changes sweep throughout our healthcare system, today's doctors must not only keep pace with the shifting world of medicine, but also push the boundaries of discovery, technology and patient care. It's a demanding career that requires a steady focus and an ongoing determination to succeed.

In SJ, many doctors see the big picture when it comes to providing quality care. We polled local physicians looking for providers who share this vision, asking them to name the peers they would recommend to a family member.

The votes were tallied to create *SJ Magazine's* Top Docs list for 2011 – a collection that represents the finest picture of health.
